Family-Friendly Dental Care that's
Committed to an Excellent Patient Experience

DR. THOMPSON

"When I built Thousand Oaks Dental, I wanted to create a place that fellow San Antonio residents felt at home. I want them to feel that they're getting treated with the same quality care, honesty, convenience and affordability that I'd extend to my own family."

-Dr. Precious Thompson

One of the reasons Dr. Thompson loves being a dentist is building lifelong relationships with her patients. Because she wants to get to know her patients and be a part of their long-term dental health, Thousand Oaks Dental is designed to provide you with individualized attention, rather than treating you like just another number. We believe a personalized approach improves the patient experience.
